

# Woodberry Down

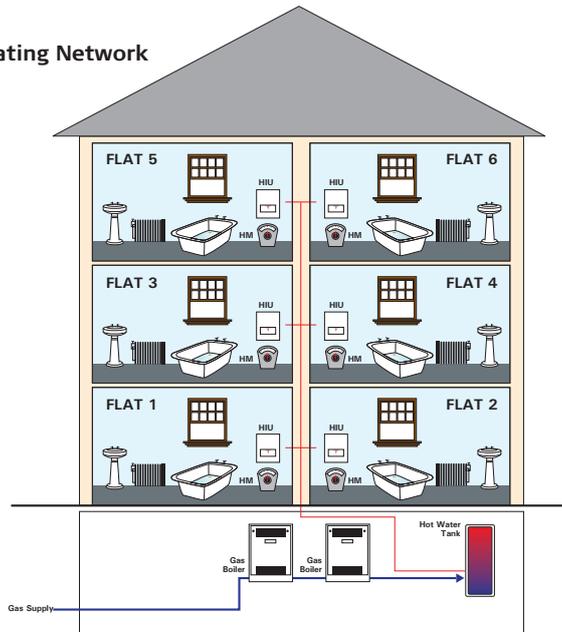

Heating & hot water services  
All you need to know

## Introduction

Welcome to Woodberry Park. Your new home is served by low carbon heating and hot water from a communal plant room, powered by gas boilers. Your heating system is robust, reliable and controllable. Just as if you had a gas boiler in your flat, you can control the amount of heating through the thermostat and heating controls. Your hot water is provided on demand.

### Direct heating Network

**Your heating is "Credit Metering"** this means you will be sent a bill covering your actual heating and hot water consumption and the charges for each unit of energy. You will be charged a standing charge, which is a fixed charge per day to be connected to the heating network. This is payable regardless of whether you consume any heating or hot water. In addition, you will be charged a pence per unit charge for each unit of heating and hot water consumed. We will read your heat meter every month, so you will generally have an actual rather than an estimated bill.

Heat tariffs reflect the cost of producing heat. You can find out more about how the -heat tariffs are calculated and when they are updated in your "Understanding Your Heat Tariff's Guide".

Insite Energy have been appointed by your Landlord to read your heat meter, send out heating bills and collect payments.

If you have a query regarding your heating bill, are moving into or out of the property or any other issue related to paying for your heat, you can call us on our helpline on 01322 623 022. Calls outside office hours will be logged and a staff member will call you back during office hours.

## What to do if you have a fault with your heating

If there is a problem with any aspect of your heating system, call our helpline on 01322 623 022.

The radiators and taps inside your flat are your Landlords responsibility; if you have any issues with these please call Berkeley Homes Customer Service Department on 01732 227 600 or contract the Estate Team based on site at your earliest convenience.

### **If your heating is not working:**

1. Check your heating controls are set properly so that your controls are allowing heat into the apartment.
2. If your heating is still not working, please call Berkeley Homes Customer Service Department on 01732 227 600 or contract the Estate Team based on site at your earliest convenience.

### **If we need to visit your property due to a metering problem:**

- We offer either morning or afternoon appointments for maintenance visits, whichever suits you best.
- We offer you the option of choosing a password for any appointments we make. This password will be used to identify the person visiting so that you know the person who arrives at your home is one of our employees.
- Should you need to contact us regarding an appointment you can contact us on 01322 623 022.

## Credit Metering

### Understanding your heating and hot water bill

Each month, Insite Energy will send you a bill based on your actual consumption of heating and hot water. Each month we read your heat meter, which measures the consumption of heating and hot water combined. We will use that meter reading to calculate an accurate bill.

Your bill contains useful information, which you will need to make payments.
